G
Good morning all you people, Good morning everyone
C G C D
Good morning to the calling birds, Good morning to the sun
We make it through the darkness, We wake out of our dreams
And here we have a brand new day Of possibilities

**C G**
**It's good to be alive**
**C D**
**It's good to rise again**
**C G**
**it's good to see the light**
**C D G**
**Color the world with faithful hands**

Good morning when it's raining, Good morning when it snows
Good morning when you feel all wrong From your head to your toes

You make it through the darkness, You wake out of your dreams
And here you have a brand new day Of possibilities

# Good Night

(Same chords/tune)
Good night you lovely people, Good night to everyone
Good night to all the nestling birds, Goodnight you setting sun
The darkness wraps around us, We lie down in our dreams
We drop away from everyday And dive into the deeps

**It's good to be alive**
**It's good to fall asleep**
**It takes the dark of night**
**To bring the rest everything needs**

Good night when days are heavy, Good night when babies cry
Good night when you just toss and turn And barely close your eyes

The darkness wraps around you You lie down in your dreams
You drop away from everyday And dive into the deeps
