C F Am G
You've searched me, you know me, my ups and downs
You feel me, you see me, you're all around
F G C G Am
Before a word is on my tongue you know
F G C
You lay your hand upon me

You're higher, you're lower, you're everywhere
There's nowhere I can go and you're not there
Night shines like day, darkness is light to you
You lay your hand upon me

You found me, you formed me, my ins and outs
You read my life story before it starts
Your thoughts are vast, your works are wonderful
You lay your hand upon me

F G
But all those bloodthirsty wicked ones
C Am G
Couldn't you wipe them out God?

Oh search me, know my heart, my anxious thoughts
Test me, and see where I've gone wrong
Lead me in everlasting ways with you
Oh lay your hand upon me
