Em C Am Em
There's pits you never might get to the bottom of
Em C Am D Em
There's rivers flowing any which way but love
There's words nobody with breath ever should have said
Reverberating inside your head
C G C G
All is falling, falling down
C Am D Em
Falling down on the ground of God

C G D C
There's peaks you never might wish to descend from
C G C D C
There's roads going every direction home
There's songs of healing and joy about to be sung
Vibrating on the tip of your tongue
G C G C
All is rising, rising up
G D C G
Rising up from the ground of God

D C G
Be still children be still
Em C G
Breathe the breath of life
D C G
Be not afraid
Em C G
To give it back

Em C Am Em
There's no beginning or end to the question
Em C Am D Em
There's battles around you and war within
C G D C
There's hope that hits you like a bolt from the blue
G C D C
Obliterating what you thought you knew
G C G C
All is falling, falling down
G Am D Em
Falling down on the ground of God
C G C G
All is rising, rising up
C D C Em C G
Rising up from the ground of God
